

Cycle 1, Week 6 – Chinese Kites

Materials:

- Print-out for each student
- Rulers
- Pencils
- Colored pencils

1. Students do the mirror-image drawing of the kite.
2. Draw a horizon line across the paper.
3. Draw a tiny person. This will be the vanishing point for the kite string.
4. Using one-point perspective, draw lines from kite to the person, as if the kite is close to us in the sky and the person is far below on land.
5. Using shapes and lines, design the interior of the kite.
6. If time, students may begin to color the drawing.
